— INCLUDED IN THE WORKSHOP —

**Pre-Training Mystery Shopping**

By shopping your tasting room, website or phone service ahead of the training class, we can more thoroughly customize our training to match your needs. This allows us to learn the personalities of the wineries and your teams. How do they engage? Do they get the visitors' contact information? Do they tell them about the club? Do they close the sale? Do they create a relationship? What are they lacking in the way of professional selling skills? For an additional fee, we will scope out these services confidentially to evaluate your sales staff's skills in these areas before training:

- Tasting Room** – An onsite anonymous visit. Site visit duration as long as needed to obtain thorough evaluation of staff skills.
- Website** – An online evaluation of the user experience evaluating ease of navigation, availability of product and winery information, ease of online purchasing.
- Phone** – A mystery shopping by phone. Evaluation of staff phone hospitality skills, product and services knowledge, ease of over-the-phone product purchasing.

**Pre-Training Strategy and Objectives Session**

We visit with your tasting room manager by phone to learn what their goals are and how they would like for the training to be targeted. We discuss our observations during our mystery shopping visit. And we're open about our entire visit, however, if anything negative came up during the visit this would not be disclosed during the training. There are no “gotchas.”

**Train the Trainer Session**

To keep the training alive and fresh!
